## Section 1: Basic Information

The title of the programme	Somleng Program
The name of the Implementing Partner receiving funding	Ponleu Ney Kdey Sangkhum (PNKS) – Light of Hope
Implementing Partner contact	
person details:	
Name	Leak Chowan (Mr.)
Role (Job title)	Program Development Manager
Address	#19B, Street 145, Phsar Doem Thkov, Chamkarmon, Phnom Penh, Cambodia
Tel: - Office Phone	• (855) 23 219 554
- Cell Phone	• (855) 92 278 404
E-mail	pnks@online.com.kh
Website	www.pnks-cambodia.org
The name and role of the person approving the report for the Implementing Partner. This person must be duly authorized.	
The start date of the programme and period covered by the report	
The date of submission of the report	13 February 2018

## Section 2: Situation Report

Recent political situation gave a concern for the work of civil society organization, NGO, in implementing community development, human rights, advocacy and the freedom of expression. It is also reminded that, Commune Election held in June 2016 showed a victory for the Cambodian People's Party. However, the result of the commune election was an astonishing for the ruling party for the enormous increase of number of supporters and commune seats that the Cambodian National Rescue Party won.

Early September 2017, Kem Sokha, head of Cambodia National Rescue Party, was arrested. An official statement from the court said, 'Kem Sokha is arrested for committing a red-handed crime related to a secret plan and the activities of conspiracy between Kem Sokha and foreigners which caused chaos and affected Cambodia'. Kem Sokha was arrested midnight Sunday 3<sup>rd</sup> September 2017 after a 2013 video surfaced where claimed to have received United States' assistance for planning his political career.

On 16 November 2017, The Supreme Court ruled to dissolve the Cambodia National Rescue Party, ending the only existing electoral threat to ruling party in the Kingdom. Under new amendments to

election laws, the CNRP will lose all 489 of its commune chiefs and all 55 of its seats in the Assembly. The Supreme National Court recognised the Interior Ministry's lawsuit and decided to dissolve the CNRP and ban their 118 senior officials from joining politics for five years starting from the day of the verdict. The picture on the right (from Phnom Penh Post) shows distributed parliamentary seats after the dissolution of CNRP and popular vote during the 2013 national election.

PNKS is working in three provinces—Prey Veng, Kampong Speu and Kampong for integrated community development through community-based organization in 58 villages in order to empower the poor economically, socially, politically and to bring hope and freedom to those who are currently marginalised. Despite current political situation, people remain calm generally although some people showed sign of anger. Some were worried about what would happen if there were an economic sanction against Cambodia, would they lose their job in the garment factories. Some people were upset about their votes were given to political parties that they did not vote for. A school teacher complaint that his school lost 2,990,000 riel annual income from the Swedish government that supported school development, teacher allowance, school materials and the students from poor families. The school had to re-budget for 2018 because of a sudden notice. People fear to discuss politics and advocacy. CNRP supporters fear that their security is threatened. However, some people said commune service improved. The authority seems to care for people more.

This political situation made PNKS work more difficult. We need to ask permission for public forum, campaign and seminar. People fear to attend workshop and training about advocacy, human rights and democracy unlike before people wanted to know about these things. In November a few days before the dissolution of CNRP, there was a police officer dressed like one of our community people attended a workshop on resources mobilization at the PNKS office Preah Sdach. We noticed this

during the introduction and he left about half an hour later. We seemed to be watched by the authority but we determined to continue our mission as normal with our political neutrality and served the interests of the poor community.

#### Section 3:

#### **Programme Achievement Against Progress Markers**

Vision

People with a deep sense of hope and freedom because they see opportunities in their lives to express themselves and their own aspirations. Communities would be characterized by respectful and loving relationships, sharing of resources and ideas and peace on individual and group levels. People would feel well off if they have enough money but also opportunities, inclusive relationships, a strong sense of community and a healthy, sustainable environment around them.

#### Mission

PNKS mission is bringing hope and freedom to people in our target areas. We see hope as arising from people having the possibility of changing their circumstances and having some control over this change. From experience over our history, this can best come about through strong, well-functioning civil society organizations, with community-oriented values, working in a context where they can effectively initiate actions and express their values.

PNKS mission is to support and strengthen VDAs in communities so that they can open opportunities for individuals, groups and communities to define what they would like to change and help them access resources to effect those changes. Practically this means PNKS will support VDAs with resources and capacity in various areas of community development as well as working with them on their own organization and governance and vision and values.

As well as supporting VDAs, PNKS sees its mission as contributing to the context in which VDAs operate, making it more conducive to change. Therefore, PNKS will also work to connect VDAs in different villages and support collective action by them. PNKS will also work on the way VL, CDA, CC and SSCs think, how they behave, the kinds of policy they make and their relationships with VDAs and each other. Our mission is to have all these actors working, from where they are, with a common vision of community-led development based in justice, equality and sustainability.

#### Goal

PNKS goal for 2017-19 includes individual, group and systemic change. Central is people in our target areas seeing opportunities for improved living conditions, freedom, environment, and hope, are accessible and the future is in their own hands. These BP will connect and empower individuals, groups and whole villages to define and find ways to realize their aspirations. VDAs can best do this if they have strong relationships with their VDC, CC and SSCs, and the behaviour, attitudes, relationships and policies of these organizations is aligned towards grass roots participatory village development. The systemic dimension of PNKS' goal therefore is strong relationships and common direction amongst VDA, CDA, VDC, SSC and CC.

#### **Core values**

#### Love

We believe true love is not merely a feeling or a concept. We believe love should be put into action. The story of the Good Samaritan has touched our hearts and encouraged us to put love into action.

#### Humility

We believe God created all men equal. No matter how rich or poor, young or old, no matter what our educational background, our social class - we are all equal. We value and respect people we work with and all the people around us.

#### Prayer

We believe God answers our prayers and He leads us in our decision-making. We believe that God is with us in our day to day life.

#### Accountability

We are obligated to accept our responsibilities. We are accountable for our actions, our decisions and for the money we spend, not just to our supporters but also to those we serve.

## Commitment

We are accustomed to being in positions of responsibility; we are self-motivated, and willing to set goals and work to achieve them, never assuming the other person is responsible.

#### Honesty

We believe 'honesty' is a key to strength. Honesty includes 'being transparent'. We want to let people, including staff, donors, boundary partners, stakeholders and beneficiaries, know what they are supposed to know, promoting the sharing of information and practices, whether good or bad, to improve learning and understanding.

#### Cooperation

We believe 'cooperation' is a key to success. We get people involved. We value people's involvement in planning and problem-solving.

## Progress Markers—VDA Progress Made

## Expects to see:

35 VDA hold regular meetings and at each meeting there's a discussion of social development issues in their community. Kampong Trach: works with 6 VDAs, in 2017. 6 VDAs held 10-12 meetings this year. However, each VDA has two saving groups. Some groups met together in a village; some groups met alone and some other groups rarely met this year.

Common issues discussed in the VDA meetings were:

- They discussed how to reduce domestic violence.
- The effects of illegal job migration.
- Gambling
- Illegal fishing
- Primary health care, they found people do not keep their houses and surrounding environment clean.
- VDA also motivate their members to grow and to keep animals.

Basedth: works with 12 VDAs, in 2017:

- 9 VDAs held 10-12 meetings
- 2 VDAs held 6-9 meetings
- 1 VDAs held 0-5 meetings only

Common issues discussed in the VDA meetings were:

- VDA used the meeting to educate the members about rights including child rights; especially they encourage children to school and respect the rights of one another.
- VDA discussed how they could help the ID poor in the community.
- They discussed to find ways to reduce violence.
- They shared agriculture knowledge.
- Health issues: they educate people about safe water, garbage management—useful garbage and useless garbage. Useful garbage are those could be used for compost making.
- They want to see more VDA members to be a role model in the community.

Preah Sdach: works with 40 VDAs, in 2017:

- 11 VDAs held 10-12 meetings
- 24 VDAs held 6-9 meetings
- 5 VDAs held o-5 meetings only

Common issues discussed in the VDA meetings were:

- Rice price is too low for people to survive
- Drugs. Drug is becoming more and more concern for the people.
- Gambling, a never-ending habit
- People sell cow dung to Vietnamese.
- This year seems to have bird problem than ever that they come and rice in the fields.
- Difficult roads

VDA Executive Committee (VDA-EC) is the main driver for sustainability. Therefore, their regular meeting is very important start. Kampong Trach: works with 6 VDAs, in 2017:

- 3 EC of VDAs held 5-6 meetings -
- 3 EC of VDAs held 3-4 meetings

Common issues discussed in the Executive Committee meetings were:

- Shared overall information
- Shared VDA results
- Discussed the issue of bad road in the village; and how they could mobilize resources to help fix the bad road.
- Most EC of VDA are working on the new regulation such as they want to have an emergency fund which could be used to support baby delivery, accident of the ID poor family members. They emergency fund is collected from VDA fund and overall community people.

Basedth: works with 12 VDAs, in 2017:

- 10 EC of VDAs held 5-6 meetings
- 2 VDAs held 3-4 meetings

Common issues discussed in the Executive Committee meetings were:

29 VDA Executive Committees (EC) hold regular bi-monthly meetings to strengthen internal control and leadership.

- They strengthened the role and responsibilities of EC members and VDA members being a role model. They also discussed the need for strengthening the VDA management.
- They strengthened sharing information in the village.
- They planned to educate people about the effects of chemical fertilizer and strengthened compost using.
- EC of VDA in Russei Yol worked on an issue of keeping community pond clean. People bath, wash clothes in the pond, and made the pond water dirty. Another issue discussed in the EC of VDA was that the village ground are very muddy during the rainy season and they worked out to manage their garbage so that it would be so dirty although the ground is wet.

Preah Sdach: works with 40 VDAs, in 2017:

- 18 EC of VDAs held 5-6 meetings
- 6 EC of VDAs held 3-4 meetings
- 11 EC of VDAs held 0-2 meetings only

Common issues discussed in the Executive Committee meetings were:

- Loan management and settling some issues with the loan.
- Strengthening VDA members to understand their own vision, mission, goal and values.
- Planning the visit to the poor families.

22 VDA made a proposal for their community development activities. Kampong Trach: works with 6 VDAs, in 2017. All of them assessed needs and challenges in the community and started to develop proposal and action plans to PNKS for small grant. Below are some actions initiated by VDA and other concerned people in the village to deal with the issues in the community.

	,
VDA in Phnom Saley	VDA in Phnom Saley village learnt that people committed domestic violence, gambling and there were thief. People felt unsafe and violence could give bad impact on their children lives. VDA worked with the Village Chief decided to conduct a public forum about domestic violence to educate people about the impact of domestic violence.
VDA in O Chaneang, Koh Tachan and Chranea Te.	Bushes along the village road block the sight of motorbike drivers. Children especially when they go to school, the motorcycle at the bend road could hit them. They also felt children were not safe commuting to school daily. They could be at risk being robbed or raped. VDA in O Chaneang village gathered people in the village to clear the bushes to make it safer for the children.
VDA in Robang Kras	During need assessment, VDA learnt that the village had issues of domestic violence, gambling and illegal fishing. Gambling, bet in rooster fighting, was especially, located near the border of Robang Kras village. VDA, Village Leaders, commune police and

	school teachers worked together and wrote a proposal to PNKS to conduct public forum to educate, eliminate gambling and illegal fishing.
SSC Keo Mony Prasat primary school.	Schoolchildren often get injured by the sharp-pointed objects while they play around the school playground. This resulted from the school environment that was not clear. There were sharp-pointed rocks and dead tree branches that leave sharp-pointed wood. The school located near the mountains.
	<ul> <li>The school conducted three different activities:</li> <li>Clean the school surrounding environment and all garbage around the school</li> <li>Clear the bushes around the school</li> <li>Having a place to burn garbage</li> </ul>

Basedth: works with 12 VDAs, in 2017: 3 VDA, an SSC and a CDA applied for small grant from PNKS.

VDA in Trapang	Issue: People do not use latrines and they bowelled movement in the bushes or near the pond.	
Sya	Activity:	
	<ul> <li>VDA cooperated with VL, HC, CC educated people about the impact of bowelled movement in the bushes or near the pond.</li> </ul>	
	<ul> <li>They conducted public forum to educate people about using latrines.</li> </ul>	
VDA inIssue: There're many plastic bags flying around and the village ground that affect the soil qualit		
Chocheb,	Activities:	
Chek and Kandeang	<ul> <li>First conducted meeting to educate people about the impact of the plastic bags.</li> </ul>	
	<ul> <li>Second conducted 'Garbage Cleaning Day' that people cleaned the public road and public area.</li> </ul>	
VDA in Russey Yol	Issue: Russey Yol face rainwater flood that makes the village muddy, dirty, contagious.	
	Activities:	
	VDA worked with VL to raise fund to buy drainage pipes and soil to raise the village ground higher up. Community people worked together to dig the ditches and placed the pipes.	
VDA in Sangke	Issue: Domestic violence that affects children schooling.	
Leak	Activities:	
	VDA worked with the village chief and commune police to educate and conduct public forum on domestic violence.	
SSC of Slab Leng Primary	<u>Issue</u> : Youths seems to start using drug and they do not behave well and disobey their parents and teachers.	

school	<u>Activity</u> : SSC worked with police officers, CDA, teachers, students, parents, local authority conducted public forum on drug.
CDA Toul Sala	Issue: Ang Say primary and secondary school has no fence.
	<u>Activity</u> : CDA Toul Sala commune worked with school teachers, student club, performed a drama to raise fund to build fence.

Preah Sdach: works with 40 VDAs, 15 VDA and 1 CDA out of 3 CDA initiated and wrote proposals to PNKS to request some fund to carry out some activities themselves.

VDA in Po village	- Educated people about microfinance loan and its effects if poor business plan.
VDA in Ta	- Educated people about domestic violence.
Pong village	- Educated people family small business
	<ul> <li>Educated people about the use and effects for using chemical in agriculture</li> </ul>
VDA in	- Educated people about loan and financial literacy
Chamkar Tamoy	- Educated people about the environment
VDA in Svay Char	- Family business analysis and income generation
VDA in	- Agriculture land title
Kampong	- Educated people about the impact from chemical
Basrey	bottle waste.
VDA in Prey A Steang	- Educated people about illegal fishing
VDA in Snao	- Educated people about alcohol abuse
	<ul> <li>Educated people about the impact from chemical bottle waste.</li> </ul>
VDA in Chey Kampok	<ul> <li>Educated people about the impact from chemical bottle waste.</li> </ul>
	- Educated people about alcohol abuse
VDA of Tnot Chros village	- Educated people about gambling abuse
VDA of Phnom Ksach	<ul> <li>Educated people about the impact from chemical bottle waste.</li> </ul>
village	
VDA in L'vea	- Educated people about alcohol abuse
VDA of Svay Kdeab village	- Educated people about alcohol abuse
CDA in Angkor Reach	- Educated people in 14 villages for 10 days on drug abuse and the impact from chemical bottle waste.

43 VDA have their own annual development plan Kampong Trach: works with 6 VDAs, in 2017:

6 VDAs in Kampong Trach, Kampot have their annual development plan. VDA annual plan is usually developed in January and February depending on the villages. PNKS staff CLDM helped making sure VDA could develop annual plan and helped the VDA to follow up the plan. The plan is kept by the VDA themselves for monitoring. Below are selected from the VDA annual plan 2017.

# village	Action from annual plan 2017	# villages carried out action plan
1 village	Fishing law education	1 village
2 villages	Land law education	none
6 villages	Vegetable growing and animal raising	6 villages
2 villages	Strengthen VHSG in reporting	2 villages
4 villages	Domestic violence education	2 villages
6 villages	Illegal gambling and drug abuse	4 villages
1 villages	Community land border conflict solving (chronic conflict)	1 villages
5 villages	Family pond	3 villages
5 villages	Village road fix up	4 villages
5 villages	Fish training and raising	5 villages
1 villages	Supporting community kindergarten school	o villages
1 villages	Well building	1 villages
2 villages	Primary health care education	2 villages
1 villages	Re-setting saving group	1 villages
2 villages	Training on fund raising	o villages
4 villages	Fixing up open and pump well	o villages
1 villages	Supporting latrine	o villages
1 villages	Building VDA office	o villages
2 villages	Village health campaign	2 villages
2 villages	Commune and village administration training	2 villages
2 villages	Small business training	2 villages
2 villages	Leadership and bookkeeping	o villages
2 villages	Meeting for set up village plan	2 villages
2 villages	VDA meeting	2 villages

Basedth: works with 12 VDAs, in 2017:

All 12 VDAs in Basedth, Kampong Speu have their annual development plan facilitated by PNKS. Below are selected from the VDA annual plan 2017.

# village Action from annual plan 2017	# villages carried out action plan
--	---------------------------------------

-11		
7 villages	Primary health care	7 villages
4 villages	Increase number of latrines	1 village
2 villages	Drug education	o village
5 villages	Fixing drainage and or village road	12 villages
	system	(majority road, 6
		village dealt
		drainage pipes
1 village	Education about the importance of education	o village
3 villages	Reducing domestic violence	1 village
1 village	Education on land law	o village
1 village	Education on Community Forest Law	o village
1 village	Setting up vehicle speed limit in the village	People just raised the issue that fast vehicles killed animals.
1 village	Eliminating gambling	o village
1 village	Education on Safe migration	12 villages
1 village	Dealing with village gang issue	o village

Preah Sdach: works with 40 VDAs, in 2017:

All 40 VDAs in Preah Sdach, Prey Veng have their annual development plan facilitated by PNKS. Below are selected from the VDA annual plan 2017.

# village	Action from annual plan 2017	# villages carried out action plan

43 VDA perform annual self-assessment using CCI tool.

Kampong Trach: Out of 6 VDAs, 6 VDAs performed self-assessment once in 2017:

Areas evaluated	# VDA performed
Vision, Mission, Goal, Values	6 villages
Meeting of Executive Committee	6 villages
Meeting of VDA	6 villages
VDA managing loan	6 villages

Basedth: Out of 12 VDAs, 11 VDAs performed self-assessment once in 2017 using CCI:

Areas evaluated	# VDA performed
Vision, Mission, Goal, Values	11 villages
Meeting of Executive Committee	11 villages
Meeting of VDA	11 villages
VDA managing loan	11 villages

Preah Sdach: Out of 40 VDAs, 20 VDAs conducted performance selfassessment in 2017:

Areas evaluated	# VDA performed
Vision, Mission, Goal, Values	18 villages
Meeting of Executive Committee	none
Meeting of VDA	none
VDA managing loan	none

The CCI form was a bit complicate that the VDA were not able to go through all. PNKS planned to review the form in 2018.

## Like to see

VDA became a role model in the community and an active body in order to support community's advocacy and needs.

Mr. Yee Koy, a member of Executive Committee of VDA in O Chraneang, has concerned over the illegal finishing that was ongoing in his village. He with other Executive Members worked together to educate their VDA members during the monthly VDA meeting about illegal fishing and its effects. He said, 'fish affected by the electricity, cannot lay egg and produce babies. There will be less and less fish if illegal fishing does not stop'. However, illegal fishing is still going on in the village. He with other Executive Members decided to report this to the commune police and commune council to take action and eliminate illegal fishing. As results, the authority took some action against the illegal fishing. He told PNKS staff that he feared the criminal that they could harm him but he said what he did was right and he was happy doing it.; and he was grateful for support of VDA members. In addition, Yee Koy is one of the men who works hard in the farm. He shared all his farming experience and taught his neighbours and other VDA members how to grow vegetables. Koy successfully grows cucumber and keeps chicken. He planned to keep fish too. One of his neighbour, named Mrs. Kun Mean, who often got bitten by her husband, especially when he's drunk. She saw Yee Koy making money from selling vegetables and chicken a number of times and she was inspired. Yee Koy also spent a lot of time with her to comfort her when she was bitten. He also introduced agriculture techniques to her and her husband that they might be interested in and started it. Kun Mean started to grow and her husband stopped bitting her because he was busy at the farm and forgot alcohol. Kun Mean was very poor but could afford to buy a bicycle for her children to school using the money she made from vegetable growing.

VDA in Rabang Kras was concerning mass gambling and rooster fighting in the village, Svay Pa'em, bordering Robang Kras village. They learnt that gambling caused violence; thief and people were not able to do the farm work or helping around the house or taking care of their children. The Executive Committee worked together to decide what to do. They met and decided to report the case to the police. The police took action and stopped the gambling and took a few gamblers to make agreement that they stopped.

VDA in Kla Chol and Veal village worked together to stop illegal fishing in the big dam, called Taney Dam, located next to the two villages. The dam was deepened by CGK/Diaconaat and community fund. Fingerling Day was conducted and released in the dam with hundreds of community participation in 2016. People of the two villages wanted the dam to be the place where fish can breed. VDA from both villages helped look after the dam. They found a few dishonest men fished almost every day, especially at night. The VDA committee met with the fishermen and told them not to fish in the dam because it is a fish stock. The illegal fishermen did not and even wanted to bit the committee. They reported the incident to the village chiefs of both villages for intervention. The village chiefs met with the men and explained them that they wanted dam to be the place where fish can breed that they could have more fish in the future and banned them from fishing. The dishonest men stopped fishing for a few days and they started again. VDA of the two villages thought that they needed to go to a higher level of authority. VDA led by Mr. Keo Kin (VDA), Mr. Uk Eng (VDA) and Mr. Koi Phin (CDA) decided to write a complaint to the commune council of Toul Sala for intervention. In the complaint, they listed all the names of people who committed fishing. They submitted two complaints, one to commune council and another one to commune police. The police officers cooperated with commune councillors asked to meet with all the names listed in the complaint. The officers asked the fishermen about the incident and they all admitted the fishing and they did not obey and argued with the VDA committee and village chiefs. They regrated and the commune councillors asked them to sign on an agreement to stop fishing and forgave them. The VDA committee also warned them if they were caught fishing again, VDA will write a complaint to the district authority. There was no more fishing in the dam since then and the VDA planned to educate people about the impact of illegal fishing.

Love to see

VDAs have good

relationship with

commune councillors

boundary partners to

improve effectiveness

village leaders,

and other PNKS

of community development.

VDA have ownership in leadership and behaviour change that could bring about positive change in the community.

## Progress Markers—VL Expects to see:

VL visited the ID poor families to learn and understand their real needs.

## **Progress Made**

VL in all 18 villages in S-KS accompanied by VDA spent some time to visit ID poor families in their villages. Every visit VDA wrote a report of the visit to CLDM. Mr. Sok Thon, Sangke Leak, was a village chief since 2008. When he started a village chief, he lacked of capacity in leadership and the heart to love the poor. PNKS started project in 2011 when he started to have more chance with PNKS in term of capacity building and compassion. He was again and again elected to be village chief since then. It is reported that he spent most of his time to participate in meetings and training as well as spending time with the VDA to work out the challenges in his village, learn and understand the needs of the poor. He wife complained that he never had enough time for the family. A pregnant woman from ID poor family was brought to the health center for delivery. At 2pm after midnight, the health called him that the poor woman was in danger that needed to be transferred to Phnom Penh immediately. He came to Health Center with his wife at night on motorcycle and hired a vehicle using his own money to take the woman to Phnom Penh. He and his wife went to Phnom Penh with the poor woman all the way to Phnom Penh and stayed with the woman until the woman safely delivered a baby.

No record. This will be reported in 2018.

No record. This will be reported in 2018.

Mr. Nou Phat is a village chief from CPP of Trapang Sya village said, "You get more people's support if you serve them well without political bias". Nou Phat used to fight and argue with the VDA and did not get along well with the VDA because he thought VDA was opposition. Nou Phat became a role model in treating people regardless political background and he is well liked by many people in his village. Once Nou Phat was sick people visited him at the hospital. They brought him more than 2,000,000 riel and many cans of soft drink. Nou Phat always spent time to visit the poor whenever he has time, specially, those who are in the most need. When his people got sick; he encourages them to the hospital and visited them at the hospital. People love him. Whenever someone is in need or in emergency, he worked with the VDA Executive members and elders

VL have the ability to mobilize resources from inside and outside to support the community. VL cooperated well with the VDA to deal with their community's issues, especially the issues of ID poor families. **Like to see** 

VL worked well to serve the community without political bias. in the village to raise fund to support the family. Here are a few happened in 2017. A family suffered breast cancer and was in need of money for operation. He worked with the VDA committee to raise fund and was able to support the family 1,200,000 riel and 20kg of rice. He also led to raise fund to support an old couple who were helpless at their old age. He supported the couple 400,000 riel and 140 kg of rice. A project staff one day called him on the phone at the time he was attending a funeral of his people in the village. The staff asked if it was his relative. He just simply replied "I don't just work for my relatives and family".

#### Love to see

VL set a good role model for younger generation.

## Progress Markers—CDA Expects to see:

All 7 CDA meet quarterly and represent the voice and concerns of their members to the dutybearers.

## **Progress Made**

Somleng Kampong Speu is working with four CDA. Kampong Trach CDA consists of three communes.

Kampong Trach CDA met two times.

Toul Sala CDA met 4 times this year

Svay Chochen CDA met 4 times this year

Svay Rompear CDA met 4 times this year

- Reflect the vision, mission, values and goal of the CDA.
- Reflect the roles and responsibilities of CDA.
- They also discussed traffic accidents as it grows concerns for community. More good roads that people tend to drive fast.
- Community continue to cut down small trees in the community forest to sell. They feared soon there will be no more trees.
- They also discussed issue of people do not have enough latrines that they bowelled movement in the bushes.

Somleng Prey Veng is working with 3 CDA and all 3 CDA conducted regularly meeting every two months with all VDA member representatives. There were some issues discussed and raised to Commune Council meeting such as child hygiene, sanitation, village environment, gambling abuse, and domestic violence. CC members accepted but they had no actions. They would complain more to local authorities.

PNKS is working with 7 CDA (3 in Basedth, 3 in Preah Sdach and 1 in Kampong Trach). Second half of 2017, both Somleng project – Prey Veng and Kampong Speu invited boundary partners, including CDA to join PNKS Annual Project Reflection and Planning. Boundary Partners were allowed to work in groups to reflect on their strengths, weaknesses and challenges they faced and together with PNKS planned for 2018. In the first half of 2018, will work on the evaluation format for CDA which can be used by the CDA themselves in the future. Most of CDA proposed for facilitation skills.

CDA has a network with C

All CDA assess their own

performance on an

annual basis

CDA of Somleng Kampong Speu invited all target village chiefs, two

members—CC, CDA, SSC, government departments and NGO that could work to improve community well-being and voices. VDA members from each village, a commune chief, a police officer, a representative of SSC and a representative from other CDA to their regular quarterly meeting. The agenda of the CDA meeting commonly were:

- Review last minute
- Sharing information social issues, increase of traffic accidents, an issue was raised related to sellers at night, they feared if anything hidden behind the selling, animal sicknesses, domestic violence etc.
- VDA of each village reports
- Challenges and solution
- Next steps

#### Like to see

Some community concerns are brought to commune investment plan for intervention. The only CDA of Svay Chocheb attended Commune Development Plan. CDA joint the commune council assessed community needs in two villages. The community of the two villages was proposing three issues to the commune development plan. One was road, latrines and safe water. It's not known if the commune considered in its annual development.

The main concerns of community that CDA in Kampong Trach brought to the commune development plan was community pond, family pond, and road. It's not known what action was taken by the commune council.

CDA in Kampong Trach with two villages – Bang Bak and Phnom Saley file a complaint to commune council about a company had big trucks transporting dirt to and fro that damaged the roads. The commune council made an agreement with the company to fix after the project finished.

#### Love to see

CDA is a centre for a collective voice to deal with community concerns and cases with the dutybearers.

#### Progress Markers—CC Expects to see:

CC created opportunities for ID poor, women, children and people with disabilities to participate in commune investment plan.

CC fulfil their role and responsibility effectively to serve the interests of the public

## **Progress Made**

CC conducted need assessment in three communes in Basedth from August to September 2017. There were a total of 3,016 people participated in the process. This included men: 797, men with disability: 19, women: 1,412, women with disability: 6, boys: 346, girls: 436. CC in Kampong Trach of three communes encouraged people to participate in the commune development plan.

In early 2017 all communes in Basedth district placed commune price service list on the walls so people know how much they need to pay for service according to laws. Although the commune office is open 7.30 – 11:00am and 2.00 – 4.30pm but there're often no commune

staff in according to the set times. If people need to see commune chief they needed to go meet him at his home. However, people in Svay Rompear commune said the commune service improved a lot since the commune election in June 2017. CNRP won in Svay Ropear. The commune officers were always present at the set time. The new commune chief initiated a collection box when people would like to give commune extra money instead of giving it to the commune chief/officer, dropped it in the collection. The fund later could be used for other social purposes. People were happy about this and they hoped that this continue although the opposition was dissolved.

#### Like to see

Some community concerns are brought to commune investment plan for intervention.

CC put people first, not political party first. **Love to see** CC has pro-poor development plan.

## Progress Markers—SSC Expects to see:

All target schools have functional SSC:

- Hold regular meeting to settle issues
- Ensure the safety of children—play ground etc.
- Promote school development

CC in Svay Rompear took concerns of people in Slab Leng market for better road, and garbage place. The market has a problem of bad muddy road and there is no proper place for trash. The commune proposing to the government for sealed road and the government responded that they would build sealed road in 2018. However, the commune would have to work out the place for garbage themselves.

## **Progress Made**

Kampong Trach: works with 3 SSC of three primary schools and a secondary school, in 2017.

All three SSC held regular quarterly meeting.

And now regular before no...

There were two common issues discussed in the SSC meetings of Keo Mony Prasat primary school:

**School environment and School Playground**: The school located near the mountain that there are many sharp-pointed objects of rocks and wood in the school ground. Schoolchildren sometimes got injured with sharp-pointed objects. The school had no proper school playground; the school has no proper place for trash. Children do not know how to manage their own waste. Garbage gave bad smell to schoolchildren and disturbed their concentration. The school has no place for children to wash hands. SSC determined to improve school playground and school environment 2017. As result, the SSC decided to raise fund to build a rubbish oven and clear the school ground. The SSC requested PNKS to contribute 645,000 riel (USD160) for this project.

Basedth: works with 3 SSC, and four primary schools in 2017: 3 SSCs held 4 meetings regularly.

Common issues discussed in the SSC meetings were:

## How to improve school:

- School environment: In Slab Leng primary school is always

flooded during the raining reason. After the flood the playground is wet and muddy as well as many dirty plastic bags. The school has no flower gardens or any planting around; no fence. Some classes were closed due to flood. The flood happens every year that Mr. Chhun Heng, a member of SSC, raised this problem during SSC meeting and they decided three action steps:

- Build the fence around school and raise the playground: After the discussion, they built fence for 9 blocks and bought 32 trucks of soil with the total expense was 4,400,000 riel. The fund for building fence and raising playground was collected from local contribution in the villages and charity. However, they did not raise enough to build the fence yet and planned it for next year to continue.
- 2. Strengthen the existing group to care for the school.
- 3. How to strengthen values of education to children and parents

## Like to see

The School Steering Committee represented the school children and teacher's voice well to the government for education improvement. **Love to see** The School Steering Committee serves the school well.

## Section 4 Risks and Challenges Faced

Risk/challenge	Impact on project	How the project managed the risk
Freedom of express and speech was stricken	Every people assembly, such as public forum, human rights day etc. we need to get permission from the district authority. Unlike before, people fear to discuss politics or attend human rights, democracy training, and or advocacy. A former commune chief elected from CNRP said he feared that he could be arrested.	PNKS continues to strengthen and raise rights awareness as well as advocacy and democratic leadership at the grassroots level. PNKS needs to make the local government to understand that these words— human rights, advocacy and democracy—do not mean to overthrow the government. It means the pursuing of the happiness for all. In fact, Cambodia is the democratic country and people need to know those words to shape pure democracy.
Cambodia may face economic sanction	Cambodia's annual growth is around 7% in the last seven years. One of the main	PNKS is not ready to challenge this impact yet.

from the western world.	supports for the growth was clothing manufacture. More than 60% of Cambodia's exports were made up of textiles, primarily finished garments and the main markets are the US and EU under 'import tariff exemptions'. Many poor people from the community work in the garment factories. The US and EU may lift the import tax exemption that could hurt Cambodia's	
Majority of young people in the village were out working in the factories or be construction workers.	clothing industry. As result people lose jobs. People were not interested in the behaviour change or working the farm or participate in PNKS activities or other community-led development	PNKS works to strengthen the capacity of existing VDA and CDA members to take on the role of PNKS after it phase out.
Our staff noticed that 9 out of 10 families were in debt to one to three micro credits	Improving people's livelihoods may take time and face higher for livelihoods program success.	PNKS work with the VDA to educate people about financial literacy that would help people how to manage their income wisely. PNKS also encourage VDA to educate their members about loan before borrowing it by making sure that people have secure incomes. PNKS also told village chief to question people if they're ready to take loan.

## Section 5: Organizational Practices

Main Theme	Results
Staff attended	- Barbara Soung PNKS chair of Board of directors and Leak Chowan,
training and	Program Development Manager of PNKS attended a series of
networks	workshops on governance organized and supported by Bread for the
	World, Danmission, DCA, Diakonia, EWMI, Forum Syd, Mission
	Alliance, SADP, World Renew and CCC. As result, it was the first ever
	PNKS Board evaluated their own performance.
	<ul> <li>Four members of NLT, two MELO and one CLDC attended three two-</li> </ul>
	day workshops on CEDRA (Climate change and Environmental
	Degradation Risk and adaptation Assessment) which facilitated by
	Mission Alliance. CEDRA promoted PNKS more on participatory
	assessment and learning on climate change.
	- Late October and November, a team of six people from PNKS and a
	staff of MA join a trip around Prey Lang area to learn about the road
	and the life of people there. We visited 14 villages in Kampong Thom,

Main Theme	Results
Internal control and management	Preah Vihear and Stung Treng provine. - In 2017, PNKS did not conduct annual internal financial monitoring as usual because audit started early in November. We did not have enough time and we did not want overlap work with the external auditor.
Activities with Church	<ul> <li>A member of the Church is a member of CDA in Angkor Reach commune.</li> <li>Diaconaat-CGK supported USD 25,000 for building a dormitory for students from the poor family to continue their education in the district center.</li> <li>PNKS provided training / workshop on Peace, Inclusive Development and human rights to Church members.</li> <li>Church was invited to PNKS events such Human Rights Day and Women's Rights Day.</li> <li>One of PNKS staff attended some of Church monthly meeting.</li> </ul>
New Innovation Community Initiatives Pilot	- N/A PNKS is working with 58 VDA, 7 CDA and 9 SSC. 24 VDA, 2 CDA and 1 SSC applied for small grant to implement their initiatives. Surprisingly, the proposals were proposing something PNKS could not think of such as to deal with drug abuse, alcohol abuse, gambling and illegal fishing. Community saw these as immediate threats to their lives. VDA, CDA and SSC were able to write a basic proposal—PNKS format and they were accountable for the activities and the fund they received. However, the weakness was that they failed to follow up and report on results change several months after the intervention.
CCI Practices	<ul> <li>Out of 58 VDA, 35 VDA used CCI tool to evaluate:</li> <li>Their vision, mission, goal and values.</li> <li>Meeting of VDA and the</li> <li>Meeting of the Executive Committee</li> <li>How well VDA manage their loan</li> <li>VDA that experienced using the CCI tool found it hard. PNKS is planning</li> </ul>
DRR Pilot	<ul> <li>to review the tool early 2018.</li> <li>In 2016 PNKS piloted DRR in 4 villages and in 2017 the number increased from 4 to 7xxxxx. The new piloted villages were introduced what the DRR was. How it was important to the current changing condition of the environment that might affect their lives and that they needed to get themselves for unexpected. This included introducing six tools – 1.</li> <li>Village profile that describe village past experience in disasters. 2.</li> <li>Hazard mapping, this tool tells people where in the village the potential risks are and what the type of risks are. 3. Venn Diagram, which show connection and resources linkage. 4. Seasonal Calendar, this tool tells people when rain/draught is expected, when rice growing, when storm is expected etc. 5. Community Capacity Assessment in responding to potential risks or disasters in the area. And 6. DRR plan.</li> <li>Limitation:</li> <li>DRR capacity only covers small proportion of people. Many people in the community still do not know what the DRR is.</li> <li>People who trained on DRR still find it hard to conduct community capacity assessment and DRR planning.</li> </ul>

Main Theme	Results
	<ul> <li>DRR knowledge reached very few children.</li> </ul>
	PNKS plans to integrate DRR in the community development. How
	could DRR be part of their day-to-day life as other challenges that their
	community are facing.
Safe Migration	Good economic growth for almost a decade, created more jobs in the
	city. People sold or mortgaged their house and land in order to get the
	money to travel to the city to look for opportunity and improving living
	condition. Some people were lucky enough that they got good jobs and
	could pay off the loan and some were cheated and became broke. This is
	unpreventable that PNKS worked with the VDA to educate people about
	safe migration. They need to research and learn it clear before making
	any decision.
Overnight Stay	Both projects continue to educate community people in the evening
5 ,	through video on the big screen. In the evening, we noticed more people
	join the event. Children were free school and adults were free from the
	fields and farms.
	- Barsedth, Kampong Speu, conducted 7 times this year. Staff
	started with games and quiz with children about child rights and
	health care. From about 7pm staff showed about gender and
	'happy family' movie.
	- Kampong Trach, Kampot, conducted 6 times this year and
	educated people about child protection, child rights, domestic
	violence and safe migration. They started with games and quiz.
	- Preah Sdach, Prey Veng, conducted 10 times this year. Staff
	started a little early by spending times with the poor and visited
	their farms. Later staff started to perform some games and then
	education video 'A happy family'.
Peace	PNKS provided Peace Training to all five Boundary Partners – VDA,
	CDA, SSC, VL and CC. Most of them have never heard or been trained on
	peace building. This is so meaningful for their lives and leadership. Mr.
	Vik Uoth, a VDA leader in Sleng village believes this peace knowledge
	strengthen his peaceful relationship with his neighbours, his team and
	the local authority. He said 'peace starts from me'.
	Mrs. Soeng Chariya, a member of executive committee of VDA in Kla
	Chul said, peace lesson helps me learn to control myself. I learn not to
	quickly judge something but spend time to understand all sides'.
AGM	Both projects—S-KS and S-PV conducted AGM at the community.
	Sadly, no Board members attended to hear what people said as last
	year.

## Section 6:

## Crosscutting Issues

Project learnt that they need to improve gender balance in project activities, including children and people with disabilities. PNKS plan in its budget plan and invitation making sure there are good gender balance with include children and people living with disabilities. In addition, project worked to reduce discrimination against people with disabilities by promoting common good, good words toward disadvantaged people, people with disabilities, children and women.

Climate change widely was discussed within PNKS team and VDA and CDA. People started to see changes in the weather partners. This year rain started early surprised many farmers. Some staff

and community were committed to friendly environment e.g. Chanthou, Project Manager, is committed to reduce using electricity at home and at the office; Sokha, CLDM, is committed to reduce using fan.Sok Choeun, CLDM, committed to reduce watching TV. Ms. Heab, Oknha Em village, committed to reduce using plastic bags. Mr. Choun, Tapong village, committed to reducing chemical fertilizer and pesticide and more people had determined to work on their bad behaviors so that they can be more friendly to the environment.

## Section 7: Unforeseen Change

## **Duty-bearers and Rights-holders**

In the event of political issues in Cambodia late 2017, the cooperation and relationship between civil society organization and local government seems to be tense and loose combine. We would like to report this in three different stages.

## **Before Commune Election**

In June 2017, Commune Election was held with a victory for the Ruling Party however the opposition party, CNRP, gained enormous supports and commune council seats comparing the previous commune election. Before commune election PNKS and other civil society organization, such as in dependent CBO, VDA, CDA had a normal relationship with the local government, however, the local government had some suspicions about these civil society organizations might secretly support the opposition party.

#### After Commune Election

After the commune election resulting opposition gained enormous supports, PNKS and CDA/VDA had a tense cooperation with the local government. They did not invite PNKS to their meeting or came to PNKS meeting. PNKS has a close cooperation with newly elected commune chiefs and commune councilors from the opposition party. They visited PNKS project and joint overnight events that never before they joint such overnight events. Cooperation with local government was rough and that the project went to meet with the new district governor that PNKS committed to political neutrality and committed to serve community's interest and to better living condition of the poor.

We saw the improvement of commune services to the public. We saw some commune councilors worked more hours during the day. We saw no more political discrimination. However, the time just before the resolution of the opposition party, authority came to PNKS office during a training session and dressed as one of the participants and later we learned police officers.

## After the resolution of the Opposition party

The commune councilors are only from one single party—the ruling party. PNKS seemed to have the best cooperation with the local government ever. They said they understood the work of PNKS and its neutrality. They understand that PNKS is not serving the political interests but the community interests that they had a good cooperation with PNKS and VDA/CDA. Commune councilors worked harder than ever to serve the interests of the people and the public. They worked full time unlike before they worked just a 2-3 hours a day. People were happy about this change.

## **PNKS** Approaches

Some activities and approaches below were not planned for 2017 but were actually carried out in 2017 because the project found to be necessary. Below are the activities that were carried out without planning.

- Both projects decided to include some members from the Boundary Partners in the project Annual Project Reflection and Planning for 2018. The reason was to promote a more participatory planning. This will also continue to 2018.
- To improve downward accountability, S-PV started to involve VDA/CDA members in project staff monthly meeting. Community was directly allowed in project discussion, problem solving and question us where and when they would like to. This could also enhance VDA/CDA democracy and transparent manner. This will also continue to 2018.
- In S-PV project, there were three groups of Boundary Partners members who wanted to have some basic computer knowledge on Word, mainly learning to type. One group has two hours per week for this computer from PNKS staff who volunteer to teach the community.
- Some staff were sent to extra courses with Peace Bridges Organization.
- PNKS paid snack to support VDA meeting. Concerning sustainability of the VDA, S-PV initiated idea by returning the snack budget to a meal together among the VDA who participated in the meeting.

## Section 8:

## Community Advocacy and Networking

Community in Po village, Chey Kampok commune, spent three years requesting commune budget for village road which was badly damaged. This year the commune council decided to renovate the road that the construction started in June 2017.

Community in Ha village requested village chief to address the issue of Trea market waste was piled next to the village road. This request has been going on for two years and still unsolved. Because the village chief said, this was the responsibility of the commune and the commune said this is the responsibility of the district and the district said 'the commune'. The district administration once tried to settle the issue with the persons who were responsible for market but failed. It is not clear how the issue could be settled.

## Section 9:

## Impact and Sustainability Analysis

In 40 villages in Preah Sdach, Prey Veng, project believe that 12 villages could be phased out by end of 2019.

In 12 village in Barsedth, Kampong Speu, project believe that all 12 villages could be phased out by end of 2019. However, two villages—Sleng and Russey Yul are still a little weaker than the rest.

In 6 villages in Kampong Trach, Kampot, project believe that 3 villages could be phased out by end of 2019.

The above was an informal assessment by the project team. The protect first set up and agree up on the criteria below:

- The villages started in 2011.
- VDA holds regular meeting and shares social issues
- EC-VDA conducted regular bi-monthly meeting to reflect leadership and management.
- VDA are able to mobilize resources and using Cl.
- VDA has annual plan and follow strictly
- Good management of resources and Book Keeping
- VDA leaders are active and committed
- VDA leaders have capable facilitation skill, leadership, management, transparency, good servant, good coordination skill, and good cooperation with local authority...

The criteria was developed and used to within the project team of S-PV and for S-KS, they discussed within the project team meeting and based on the minute of the VDA meeting. The decision then was mainly made based on project staff meeting. The next step, 2018, both projects will conduct this village sustainability assessment with the VDA using the same criteria to learn capacity gaps. However, one of the TOR for mid-term review was how soon PNKS could phase out from the current target area. The midterm review would provide concrete phasing out plan.

#### Section 10: Lesson Learnt

Some association members became village leaders after the commune election. They have a great deal of experience in human rights, helping the poor and some other social work.

- Increasing numbers of people who raise chicken based on techniques—in cage, small chicks were vaccinated. Many of them can vaccinate and treat the chicken themselves. The chicken farms help keep farmers busy at home that they did not care for seeking job outside. The chicken farms also help reduce imported chicken.
- There's a big change in commune leadership after the commune election this year. It is not known how this change would affect the work of PNKS and the life of the poor community people. During the election campaign political parties usually promised people something. We do not know if the winners could keep their promises.
- More than 10 activities delayed across the program during commune election. Last year was not aware of that commune election took us more than a month that we were unable to gather people event conduct trainings with the community.

#### Explanation of variance 10% and \$500

**5102** · <u>is underspent</u>, The cost to rental generator for the activity "Stay overnight in target areas" remained due to we bought a generator and this activity has not been done monthly as we planned. So the fund for support refreshment and gifts for answering questions remained. Another, the activity "Disseminate to ID poor of VDA and community people about home garden" has not been done to all VDAs. Latrine support to ID poor family has been supported to 11 out of 15 ID poor families which planned due to missing work delegation among responsible staff.

**5104** · <u>is overspent</u>, The budget set for providing package for community initiative proposals planned for 12 VDA/CDA, actually 23 VDAs, 2 CDAs, 1 SSC proposals were approved and implemented. The reason was after proposal training to VDA and CDA, they tried to apply and PNKS also encouraged them to apply. Therefore, it's overspent.

**5105** · <u>is underspent</u>, the activity "prepare annual and quarterly plan to visit ID poor" planned for 4 times but only 3 times happened and another 1 was postponed because it was planned during commune election that CC and VL were not able to attend as they were busy with political party campaigns.

**5107** • <u>is underspent</u>, The activity "Develop partner network between BP and partner to solve community issues" has not been done because assembly was sensitive and the local authority was not very supportive. In addition, the emergency relief has not spent due to it was not case happened.

**5303** · <u>is underspent</u>, The activity "Build capacity on role and responsibility and decision power to Community board for CI" in S-PV, it was planned for three Boards but only 2 were done. The project failed to do it in L'vea commune because the board was set up in November which was too late for capacity building. Anyway, the activity "Provide training on leadership, role, and responsibility to local authorities" planned for 60participants, actually, 30 participated. So the money for supporting refreshment, travel, and food remained. In addition, We set budget to support 3 HCs monthly meeting in Borseth district, actually this 3HCs was supported by organization for this meeting since April 2017. So PNKS postponed to support and the budget remained.

**5305** · <u>is underspent</u>, the activity "Cooperate with district officer to conduct the competition on Good commune" planned by S-KS was postponed because the political situation--the replacement of commune councilors and the dissolution of opposition party.

**5450** · <u>is overspent</u>, After we hired consultant for ending cycle evaluation in 2016, our new OM approach took us more time to make our staff understand, it required Program Development Manager more time to visit project for monitoring the process of new approach.

5530. *is underspent*, The consultant fee to build capacity MELO and develop M&E tool is cheaper than budgeted.

**6130.** *is underspent,* We estimated wrong, a copy of planner was 5\$ and brochure was 2.5\$ and the actual cost of a copy of planner was 1.14\$ and brochure was 0.72\$ that were also due to it was cheaper when we printed more copies.

## <u>Appendix 1</u> Most Significant Change / Case Study

## WHEN PEOPLE HAVE OWNERSHIP IN DEVELOPMENT

Taney Dam located in Kla Chul village in Toul Sala commune, Barsedth, Kampong Speu. Taney Dam was renovated by Diaconaat-CGK fund and community contribution. The fund was used to deepen the dam that could store more than 10,000 cubic meters of rainwater where people in two villages could use for rice farm, cattle, vegetables and daily use throughout the year.

Development Association in Kla Chul told us the story as follow, 'Taney Dam is the only main source

of water for community in Kla Chul village. The Dam was built by the Khmer Rouse but it got shallow and dry out in dry season. People had no water for cows, for farming and for daily use. There were no fish. In 2016, Diaconaat-CGK provided some fund with the community contribution the Dam was excavated deeper. On 7 December 2017, a Fingerling Day was held with the presence of ordinary people, local authority from the commune and the district, police officers and the village development association. Thousands of fingerlings were released in the water along with trees planting. People were very happy and it was a memorable event ever for people. The Dam become a fish stock where they can breed and give nutritious food for people around. The Dam committee set up some regulation to protect the fish.

Unfortunately, several months later around September-October 2017 when the fish became big enough, a few dishonest men started to fish using fishing nets without permission, almost every day especially at night. The association and Dam committee learnt it and reported to the village chiefs of Veal and Kla Chul. The two village chiefs met with the fishermen and told them about the Dam is for fish breeding and warned them not to fish in the Dam again. They stopped fishing for just a few days and started again. The village chiefs and the association committee reported the incident to the commune council. The commune council asked the fishermen to signed an agreement that they stop fishing and they were released. The association

warn the fishermen that they would complain to the district if fishing was still going on. So far no one fish in the Dam and people stay guard the Dam'.

PNKS did not involve in the issue settlement and did not know it until the issue was settled. People determined to protect the fish in the Dam. This resulted from development of people ownership.

Interviewed and written by: Ms. Hat Sinet, CLDM 18 December 2017

## SIEK THUON FROM AN ORDINARY MAN TO A MAN WHO ACTIVELY INVOLVED IN SOCIAL DEVELOPMENT

Siek Thuon a man who was selfish and never cared about others; he never cared about society and people. He changed when he became a member of the association.

Siek Thuon is 35. He is married with two children, a girl, named Son Lyly. She is five years old and studying grade 1. The second son is 2 years old. Siek Thuon lives in Sangke Leak village, Svay Chocheb commune, Kampong Speu. He was born in a poor family with eight brothers and sisters. He is the 6<sup>th</sup> child. He failed grade 12 exam and because of poverty he decided to stop school and find job in the city. Life in the city was not as easy as life in the countryside. I made \$60 per month. I loved motorbike so much that I worked hard and saved enough to buy one motorcycle that costed me \$450. It was not a new motorcycle but I loved it so much.

He got married in 2009 and they both moved to Phnom Penh to look for opportunity. They were

hoping to work hard, to save and get rich. Unfortunately, his often got sick. They did not save much decided to come home with only 500,000 riel (USD 125). They used this money to start pig raising for the living.

Siek Thuon shared his story with us how he started with the association as follow. In 2014, I visited Mrs. Oun Pheap. She was a member of the village development association committee. Mrs. Pheap asked me to join the association for travel opportunity. I agreed. I was elected as Village Development Association treasurer because I was one of the person who studied grade 12. I did not know what the job of the treasurer was. I felt hesitated and nervous. What I was hoping was to travel with PNKS. As expected I was attending exposure trip, training, workshop with PNKS and I learnt many things useful for myself and others. I learnt from agriculture to health care and from human rights to gender equality. These are very beneficial for our family and community. I learnt to care for others, especially the poor. I spent time visiting the poor in my community and help them with agriculture and health care. I have never seen and done such things before in my community. I encouraged those who were to come to the meeting and encourage those who were not yet members to be members. Besides helping our association, at home I took care of my kids while my wife out to work in the garment factory. At home I run a small grocery store and keep some pigs, chicken and ducks.

In 2016 PNKS set up Commune Development Association, I was elected to be the head of the Commune Development Association (CDA). There were more jobs for me. I do not just work for my village but others too. In this new job I had to be responsible for four villages. I travel from village to village to visit the VDA in order to support the VDA management, leadership, their saving and recording. In addition I had a role with other CDA to approve their Community Initiative proposal to PNKS. Every three months I have to attend meeting with the commune council. I am happy to share what I learnt from the ground to the meeting and I am also happy to hear what others say too.

This new job requires a lot of my time, energy and commitment. In return, I get to know more people and friends and having good relationship with others. This job also made me feel confident, strong and I learnt a lot from it. I am proud to take part in development of our community and society.

I would like to like to see people have better health care and living standard; they have better skills and knowledge they need in their lives, especially financial literacy which it could help people manage their income wisely. I would also like to take this opportunity to thank PNKS and her supporters that made this possible.

Interviewed and written by Ms. Rim Kong, MELO 22 December 2017

He is auditing VDA saving and visiting farmer.

Some activities when he joining trainings and meetings.

## TATOV PIG FARM

People used to think and believe the authority was the parents and the people were the children. The parents would take good care of their children. Children do not need to complain but the parents would seek to understand what is best for the children. Sometimes it is not the way people think.

In Tatov village there's a big pig farm, believed to keep hundreds of pigs. The waste from the pigs stored in an open pit which gave unpleasant smell to people living in Tatov village, especially when the wind blow from the north. The pig farm is about more than a kilometer from the village. People complaint the unpleasant smell came when they were eating and sleeping. They felt uncomfortable when breathing. The farm started a few years ago but no authority cared about their children. Village Development Association (VDA) decided to report to the village chief and the village chief went to talk to the farm owner but no use. This time it was not the village chief alone to meet with the pig farm owner, the village chief went with some members of the village development association to put pressure on the pig farm. The pig farm owner agree to do something about the waste but they need time to study. The village chief and VDA went several more times to follow up on the agreement. The farm invested about USD 10,000 into pig- waste biogas. They had one big plastic tank where all the waste would go in and produce useful gas.
